DIPLOMA – ENGG(Mechanical) KSDTE - The Directorate of Technical Education, Karnataka, Karnataka, IND	Mar-2023	78.30	%
CLASS 10 / METRIC (Kannada, Science, Math's, Hindi) KSEEB - Karnataka Secondary Education Examination Board, Karnataka, IND	Apr-2020	72.32	%

TECHNICAL SKILLS

Database: SQL
Frontend: HTML, CSS, JavaScript
Programming Languages: python
Data & Visualization: Power BI
Tools & Platforms: GitHub, VS Code

CERTIFICATIONS

The Complete Python pro Bootcamp Udemy	Udemy (Instructor: Angele Yu)
Introduction to AI - Infosys Springboard	Infosys Springboard – July 2024
Data Analysis with Python certification	Issued by Cognitive class

PROJECTS

- Classification of RBC-WBC Disorder**
Developed a machine learning-based system for classification of RBC and WBC disorders, leveraging medical image analysis techniques to improve diagnostic accuracy
- Facebook Data Analysis - Power BI**
This project provides valuable insights into the company's user performance across various regions, time and details of users.
- Furniture E-commerce Website**
Refactored and optimized front-end codebase for performance, achieving faster page loads and smoother transitions in the product catalog

EXPERIENCE

- Python for Data Science Intern | QSpiders (Jan 2026 – Present)**
"Undergoing industrial training in Python for Data Science Intern as part of the final year B.E. curriculum."

INTERESTS & HOBBIES

- Exploring emerging technologies and software trends
- Listening to music and podcasts on tech, and self-growth
